What Makes Us Different?

Our patients really do mean everything! We get to know you, we want you to feel at ease, we listen and connect with you to build your trust. When you become a patient of Upen J. Patel, DDS, MAGD, you become part of our family. The long lasting relationship we build is what allows our patients to achieve a lifetime of good oral health.

In order to serve you better, we have enclosed several important forms that will assist us in making your transition to our practice as smooth as possible. We ask that you read and complete all forms prior to your first visit and bring them with you so that we may utilize the full amount of time we have reserved for you. You can expect your visit to last approximately ninety minutes.

On your first visit with us, you can expect a thorough examination of your teeth, gums and mouth, looking for signs of disease or other problems. We will also take any x-rays needed to help diagnose anything that would go unnoticed. Our goal is to help you maintain good oral health and to prevent any problems from becoming serious, by identifying and treating them as soon as possible. Your overall health and wellness is important to us.

We are looking forward to meeting you and taking care of your dental needs. Please call us at any time, should you have any questions or concerns.
